Thermal Scanning Kiosk with Facial Recognition
AP-TSK-UP-1 stand-alone & AP-TSK-TT-1 Table-top

The ***Thermal Scanning Kiosk*** line utilizes advanced thermal detection technology to quickly scan internal body temperatures. Combined with intuitive software, The kiosk can quickly identify potential safety threats and help mitigate large-scale exposure. Features include:

- ≤ .5°C Accuracy
- Non-Touch Scanning
- Network Capabilities
- Toggle Capability for Facial Recognition Features
- Optional Card Reader Features
- Wall, Table & Podium Mounting Options

The thermal scanner recognizes faces 1-8 feet away. The fixture can be used to prevent users with a fever from entering facilities such as schools, retail locations, manufacturing facilities, and government buildings.

A database of employees can be created to limit access to approved individuals. Or the device can accept any person without a fever.

Features

- Available as table mount, floor mount, or stand-alone fixture
- Contactless system measures user's temperature
- Verbal notifications provide instructions to the user
- Recognizes if the user is not wearing a mask (optional)
- Supports peripherals such as RFID card readers (needs programming)

Universal Keyboard Cap

NEW

AP-UKC3-1

- This kit contains 3 Universal Keyboard Caps. It is made of premium grade TPU and allows the user to experience the same tactile feel as no cover.
- Designed to protect most standard sized keyboards with numeric keypads (it is not suitable for ergonomic keyboards or keyboards with extra-large borders).
- The Keyboard Cap is an easy-to-use, semi-disposable Protector that functions like a shower cap for keyboards. It is a highly flexible and transparent plastic sheet with an elastic band that allows you to quickly and easily attach the Protector. This design allows for protection from crumbs, hair, dust, spills, and other debris, while typing remains unhindered and free. The semi-disposable design means the keyboard is designed for several months of intensive use and abuse, and it is easy to clean and sterilize for use in public workspaces. This 3 pack gives you spares so you can swap out the Keyboard Caps for regular cleaning.
- Contents: Three Universal Keyboard Caps; Dimensions: 7.5" x 5.5" ; Thickness: 0.025 mm (1

HOW IT WORKS

- **Disinfects**
  for use against a wide range of bacteria and viruses including SARS-CoV-2, MRSA, Salmonella, Pandemic 2009 H1N1 influenza A virus, C. diff spores, HIV, Norovirus, and Rhinovirus.
- **DEODORIZES**
  for use against the bacteria that cause odors, leaving no scent behind.
- **GERMS OFF**
  Reduces cross-contamination by stopping the spread of germs before it starts.

•HOCI is the scientific formula for hypochlorous acid, a weak acid similar to that of a mild citrus juice.

•HOCI is made naturally by white blood cells in all mammals for healing and protection.

•HOCI is a powerful oxidant that is effective against invading bacteria, fungi, and viruses.
